Type “Golden Pass LNG” in the “**Project Name/Number**” field in the Project Specific Info section

The screenshot displays a navigation bar with various assessment categories: Company Information, Client Requirements (orange circle), Insurance / Injury / Illness (green check), OSHA Experience (green check), Safety Management Systems (green check), Safety Program Elements (green check), Special Elements (green check), Safety Profile, Extra Features, and Financial Profile. Below this, two progress bars are shown: 'Zachry Safety Criteria' is marked 'COMPLETE' with 'Questions Answered: 6 of 6' and a 100% progress bar; 'Zachry Project Specific' is marked 'INCOMPLETE' with 'Questions Answered: 0 of 1' and a 0% progress bar. To the right, the 'Zachry Project Specific:' section contains a 'Project Specific Information' header, a note about qualifications, and a text input field for 'Project Name / Number' which is circled in red.

NOTE: CCZ JV will maintain all information with the utmost confidentiality and only share the results of the assessment internally on a need-to-know basis. Pre-qualification is generally not required for consumable products and rentals. However, if your rental requires work on site, you may be required to pre-qualify.
